

BSS610 | GENERAL INFORMATION - FIXTURE HOUSING

2" wide multi-axis direct LED luminaire system

Project: _____ Type: _____

FEATURES

Create an endless variety of multi-directional fixture runs and geometric shapes with the BS610 YoX linear LED system. This luminaire family consists of modular 2" wide by 3" tall extruded aluminum housings and joining modules in End, Straight, "L", "T", "Y", and "X" configurations. Fixtures can be surface or cable suspended and optioned with a variety of dimming drivers and occupancy sensor.

SPECIFICATIONS

Fixture housings constructed an extruded aluminum housing, extruded, frosted acrylic lens and machined aluminum end caps

Mounting variations offered for surface or cable suspended applications

Fixture housings require BSS610-M Joining Modules for mounting and supplying power (specified separately)

Standard finishes include Fluoroscope White (semi-matte), white (semi-gloss), black (semi-matte), matte black, silver, platinum*, bronze and primer powder coat, applied post production (consult factory for custom finishes)

Fixture modules available in nominal lengths of 22"-88" and are provided with suitable length wiring for connecting to adjacent fixtures or power modules

Standard integral 120-277V driver offered with 0-10V dimming or non-dim (other dimming driver options available)

Integral 120-277V emergency battery backup available for 44"-88" fixtures (remote battery backup available for shorter fixture lengths - ordered separately, consult factory for details)

Standard outputs are 5W or 8W nominal per foot

LEDs available in 3000K, 3500K, 4000K, 5000K, all with a typical 84-85 CRI and color consistency within a 3 step MacAdam ellipse

Lamp life rated at 50,000 hours

Limited five year warranty

UL and C-UL listed for dry and damp locations

IBEW manufactured and assembled

Made in U.S.A.

BSS610-M | GENERAL INFORMATION - JOINING MODULE ACCESSORY

Joining modules for BSS610 LED fixture housing

Project: _____ Type: _____

SPECIFICATIONS

Joining Modules constructed an extruded aluminum housing, and machined aluminum end caps

Standard finishes include Fluoroscope White (semi-matte), white (semi-gloss), black (semi-matte), matte black, silver, platinum*, bronze and primer powder coat, applied post production (consult factory for custom finishes)

Modules available in End, Straight, 90° "L", 90° "T", 90° "X", 120° "L" and 120° "Y" configurations

Mounting variations offered for surface or cable suspended applications

Cable suspended modules with the power feed option provided with coordinating (white, black, metal braided) 18 ga. power cable for load up to 6 Amps

Passive infrared occupancy sensor available for 34" and longer fixtures
