### **FEATURES**

The Horizon BHR301 linear illuminated coffer luminaire provides clean, understated yet high performance general illumination. Recessed into a ceiling, a visibly quiet, 2" wide illuminated coffer distributes light efficiently across a broad range. Grid ceiling, flange trim and trimless mounting options are available, as well as a variety of dimming drivers and light outputs, to maximize the versatility of this clean design luminaire.

#### **SPECIFICATIONS**

Fixture housing, chassis and trim elements made of extruded aluminum, with additional heavy gauge sheet parts

Model options available for typical 9/16" and 15/16" grid ceilings or hard ceilings with flange and trimless mounting

Coffer formed of 98% reflective material

Available in nominal lengths of 2'-7' single fixtures and continuous runs

Basic continuous run fixtures provided with 18 ga. wiring harness for 6 Amp maximum load (consult factory for runs requiring multiple circuits, sensor integration, etc.)

LED modules, driver, and reflector are integrated into the chassis, which snaps into the outer housing for simple and quick installation

Standard integral 120-277V driver offered with 0-10V dimming or non-dim (other dimming driver options available)

Integral 120-277V emergency battery backup available for 4' nominal non-dim or 0-10V (consult factory for all other lengths/drivers)

Standard light outputs are 665, 880 and 1090 lumens per foot

LEDs available in 2700K, 3000K, 3500K, and 4000K, within a 3 step MacAdam ellipse, all with 90+ CRI typical

Life: 50,000 hours L<sub>70</sub>

Chicago plenum rated option available

Nominal weight is 2.8 lbs. per foot

Limited five year warranty

UL and C-UL listed for dry and damp locations
