

REAL81 | FAUX REAL

2" wide aperture direct/indirect LED luminaire, wood or steel cladding

Project: _____ Type: _____

FEATURES

The REAL81 is a linear, direct/indirect LED luminaire for general lighting applications. The 3" wide by 4-1/2" tall aluminum extruded housing is clad with 1/2" thick wood planks or heavy gauge Corten steel. The furniture grade wood options are available in several standard varieties, with hand applied finishes, while the Corten steel is clear coated. The REAL81 is available for cable or wall mounting and offered with a variety of dimming driver and light color options for added versatility. The REAL81 is Controls Capable, being offered with a variety of integrated control options.

SPECIFICATIONS

Fixture constructed of an extruded aluminum housing, extruded, frosted acrylic lens, machined aluminum end caps and wood or steel cladding.

Model variations offered for cable suspended and wall mount applications.

Wood side cladding is 1/2" thick, furniture grade, in solid walnut, European beech, mahogany, white oak and bamboo ply or nine-ply Baltic birch with maple face.

Solid wood planks and bamboo ply are hand finished in five to seven coats of clear shellac and sealed with clear liquid wax for a natural look and easy cleaning.

Baltic birch planks are available with a clear shellac finish or water-based stain with clear sealer.

Corten steel side cladding is 14 gauge with matte clear powder coat finish and includes button head fasteners in black finish.

Optional decorative industrial hardware with black finish available for wood cladding.

Fixtures available in nominal lengths of 2'-8'.

Standard integral 120-277V driver offered with 0-10V dimming or non-dim (other dimming driver options available).

Integral 120-277V emergency battery backup available for 4' or 8' nominal, single circuit fixtures with non-dim or 0-10V dimming (consult factory for all other lengths/drivers).

Standard light outputs range from 315-405 lumens per foot for the direct source and 465-740 lumens per foot for the indirect source.

LEDs available in 2700K, 3000K, 3500K and 4000K, within a 3 step MacAdam ellipse, all with 90+ CRI typical.

Flat blade louver option available.

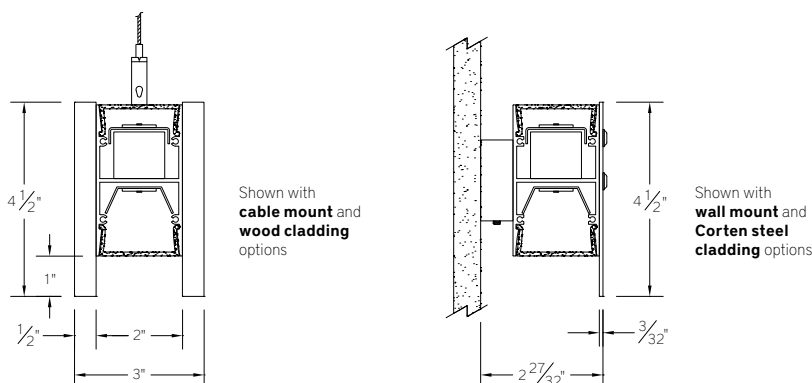

Bartco Lighting Controls Capable fixture available with integrated controls from a variety of suppliers.

Life: 50,000 hours L₇₀.

Limited five year warranty.

UL and C-UL listed for dry locations.

 LUTRON	LA1	Set during commissioning	A-WN-D01-RF-WH	Radio Wireless	Dimming only for use with an Athena control system.	Provided with Advance sensor ready series or eldoLED 0-10V or eldoLED DALI-2 drivers.
	LA2		A-WN-D01-OCC-WH		Dimming, PIR occupancy and daylight sensor for use with an Athena control system.	

1. Consult factory for custom light output setting.

2. Consult your Acuity representative for application-specific model number.

2" wide aperture direct/indirect LED luminaire, wood or steel cladding

FINISH

- All wood planks are hand selected from the top grades available, for minimal defects, with high consistency in grain, color and contrast. Being a natural material, some variances in these qualities are to be expected.
- Solid woods, bamboo ply and Baltic birch ply with natural maple are finished in five to seven coats of hand applied natural shellac, followed by a liquid wax sealer for easy cleaning.
- Stained Baltic birch plywood options are hand finished in multiple coats of semi-transparent stain, followed by a clear sealer.
- Corten steel cladding is finished in matte clear powder coat and includes button head fasteners in black finish. Due to the oxidizing nature of the material, variations in surface finish patina are to be expected.
